

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

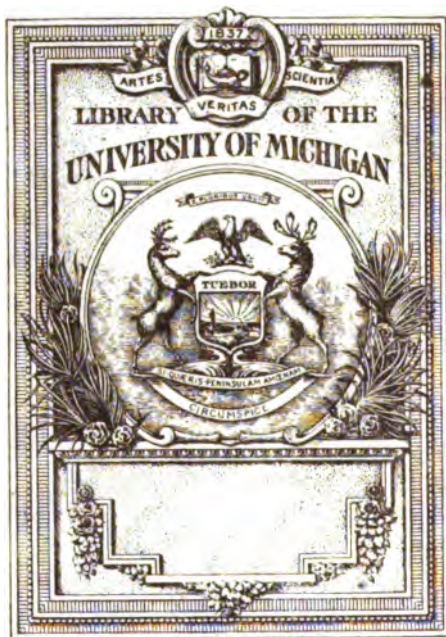

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE FORTY-NINTH REPORT
OF
THE DEPUTY KEEPER OF THE PUBLIC
RECORDS.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY,

I RESPECTFULLY beg leave to submit to Your Majesty a Report of the proceedings in the Public Record Office during the year 1887; pursuant to the Act 1 & 2 Vict. c. 94. § 17.

First, I have to record the loss which the Office has suffered by the resignation of Mr. J. Edwards, the Secretary, and the death of Mr. F. S. Haydon, an Assistant Keeper.

Mr. Edwards entered the public service in April 1840 as a Junior Clerk. He was promoted to the Second Class in August 1855, and to the First Class of Assistant Keepers in August 1861. Upon the resignation of Mr. Roberts, Mr. Edwards was, in October 1866, appointed to succeed as Secretary of the Public Record Office. He also acted as Accounting Officer of this Department from that date until the end of the year 1873, when the Lords Commissioners of Your Majesty's Treasury nominated the Deputy Keeper to be Accounting Officer. He resigned his place on the 31st of March 1887. Throughout his official career Mr. Edwards was chiefly engaged in the transaction and registration of current business in the Secretary's Department, and in rendering necessary assistance to four successive Deputy Keepers. In 1860, Sir Francis Palgrave took occasion to acknowledge publicly (in the Twenty-first Report of the Deputy Keeper, p. v) the aid which he had received from him in the preparation of his Annual Reports to Your Majesty, and Sir T. Duffus Hardy and Sir William Hardy successively received similar aid from him. Mr. Edwards's regularity and integrity have been very valuable to this Office.

Mr. Frank Scott Haydon, B.A., was appointed a Junior Clerk in this Office in November 1845, a Senior Clerk in June 1860, and an Assistant Keeper in May 1885. He died in October 1887. During the last few years of his life, he was accounted second to no officer of this Department in knowledge of the writing, language, and usages of mediæval England. The first

instalment of his elaborate Calendar of the Patent Rolls of the reign of Edward I. was printed in the Appendix to the Forty-second Report of the Deputy Keeper of the Public Records, and further portions have been printed since, the Calendar for the eighth year of the reign being given in the Appendix to this Report (pp. 1-200).

In addition to work done during official hours, Mr Haydon edited, for the series of Chronicles and Memorials of the Middle Ages published by the Lords Commissioners of Your Majesty's Treasury, under the direction of the Master of the Rolls, the Latin Chronicle known as "*Eulogium Historiarum*," which was issued in three volumes between the years 1858 and 1863.

The vacancy caused by the retirement of Mr. Edwards was filled by the promotion of Mr. J. J. Cartwright, a Senior Clerk in this Department, to be Secretary of the Public Record Office, a post for which his previous experience had made him specially qualified. The vacancy among the Assistant Keepers caused by the death of Mr. Haydon was filled by the promotion of Mr. W. N. Sainsbury, a Senior Clerk. Mr. G. F. Handcock and Mr. G. H. Overend, Junior Clerks, were promoted to fill the vacancies thus caused among the Senior Clerks.

§ I. NEW RULES AND REGULATIONS.

The following Rules and Regulations were made by the Master of the Rolls in April 1887, and laid before both Houses of Parliament within six weeks, as required by the ninth section of the Public Record Office Act, 1838:—

"RULES AND REGULATIONS made by the MASTER OF THE ROLLS respecting the public use of the RECORDS and DOCUMENTS in his custody.

"1. In these Rules and Regulations, the word Record shall include a set of Records or Documents comprised in a single reference in the official Calendars, Catalogues, or Indexes.

"2. The Search Rooms shall be open to persons desiring to inspect or search Records or Documents on every day, except Sunday, Christmas Day to New Year's Day inclusive, Good Friday, Easter Eve, Easter Monday, Easter Tuesday, Monday and Tuesday in Whitsuntide, Her Majesty's Birthday, Her Majesty's Coronation Day, and days appointed for public fasts or thanksgiving.

"3. The hours of admission and attendance shall be from 10 to 4 o'clock, except on Saturdays, when they shall be from 10 to 2.

"4. Every person proposing to inspect or search Records or Documents shall write his or her name and address, daily, in the attendance book kept by the hall porter.

"5. No umbrellas, sticks, or bags shall be taken into any Search Room, and no parcels shall be placed upon the tables.

"6. A separate ticket shall be clearly written and signed by every person desiring to inspect or search any Record or Document for each Record or Document required, and such ticket shall be given by such

person to the officer in charge of the room before any Record or Document can be produced to the applicant.

"7. No person shall have more than three Records or Documents, inclusive, out at a time.

"8. Records and Documents when done with shall forthwith be returned by the person to whom they have been produced, to the officer in charge of the room, or to one of the attendants, in exchange for the tickets referring to them, and every such person shall be held responsible for the Records or Documents issued to him or her, so long as his or her ticket shall remain with an officer of the Public Record Office.

"9. A fresh ticket, clearly written and signed by the person to whom Records or Documents have been produced, and bearing the words "kept out," shall be required for every Record and Document kept out from one day to another for the convenience of such person.

"10. No person shall lean upon any Records, Documents, or Books belonging to the Public Record Office, or place upon them the paper on which he or she is writing.

"11. No person other than an officer of the Record Office shall make any mark, in pencil or otherwise, upon any Record, Document, or Book belonging to the Public Record Office.

"12. Ink shall not be used in the public Search Rooms by any person admitted thereto for the purpose of inspecting or searching Records or Documents.

"13. Tracings of Records or Documents shall not be made by any person without specific permission from the officer in charge of the room.

"14. A list of all Calendars, Catalogues, and Indexes intended for the use of the public shall be kept in each of the Search Rooms, and shall be revised from time to time. Calendars, Catalogues, and Indexes not mentioned therein, or withdrawn therefrom, shall not be produced in any Search Room without an order from the Deputy Keeper.

"15. Records not mentioned in any such list, and Records in course of arrangement, shall not be produced without an order from the Deputy Keeper.

"16. Records and Documents of exceptional value, and Records and Documents in fragile condition, shall be produced singly, or subject to such conditions as the Officer in charge of the room shall, in the particular case, think requisite for their safety and integrity.

"17. Documents deposited in the Public Record Office by other Departments shall be produced only on the order of their respective heads, or subject to such conditions as they, with the concurrence of the Master of the Rolls, shall from time to time impose.

"18. Persons admitted to the Search Rooms shall replace the Calendars, Catalogues, and Indexes used by them on the shelves as soon as they are done with.

"19. Records, Documents, Books, or other articles belonging to the Public Record Office, shall not be removed from one room to another without the specific permission of the officer in charge of the room.

"20. Silence shall be maintained in the Search Rooms, as far as possible.

"21. The officer in charge of any Search Room shall be empowered to exclude persons from the Public Record Office for any of the following reasons:—Wilful breach of any of the foregoing Rules and Regulations, persistent disregard of the officer's authority, damage of any sort to any Record or article belonging to the Public Record Office, conduct, language, habits, unseemly dress, or any other matter offensive, or likely to be reasonably offensive, to others using the Public Record.

Office. Provided always, that the exclusion of any person shall be forthwith notified in writing with the cause thereof to the Deputy Keeper, who shall inquire into the circumstances, and whose order, unless reversed by the Master of the Rolls, shall be final.

"22. Inasmuch as a large number of Records of the Courts of Law and Equity have been of late years transferred into the Public Record Office, and are there frequently consulted for other than literary and historical purposes, fees shall be paid according to the table hereunder set forth for the production of such Records, unless the applicant satisfies the Deputy Keeper that such production is required solely for the purpose of literary or historical research.

"The other fees specified in the said table shall be payable as therein mentioned.

"TABLE OF FEES, payable in every case by Stamps.

"These Rules and Regulations shall take effect on the 1st of May 1887, in substitution for the existing Rules and Regulations, which shall as from that day cease to have any operation.			
(Signed) "ESHER, M.R."			

About six months after the promulgation of the foregoing Rules and Regulations, the Master of the Rolls received the following Memorial relating thereto:—

"MY LORD,

"WE, the undersigned, on behalf of the Public, desire to draw your Lordship's attention to some of the New Rules and Regulations made relative to the Records deposited in the Public Record Office; namely, to Rules 12 and 22, and to the first two items in the Table of Fees.

"We beg to suggest that these should be abrogated or modified, on the ground that they press heavily on Antiquaries, Historians, Genealogists, Barristers, Solicitors, Clergymen, Record Agents, Copyists, and the Public generally, while not conferring benefit on anyone.

"We make the application on behalf both of those who frequent the Round Literary Search Room, and of those who frequent the Long Literary (*sic*) Search Room.

"If it be possible to make distinction, we suggest that the Round Search Room, which is used more especially for literary and copying purposes, should be excepted from the action of Rule 12.

"With regard particularly to Rule 12, which prohibits the use of ink, we beg to state that no satisfactory substitute for ink exists; that all pencil-writings are objectionable in themselves; are subject to early deterioration and obliteration; and entail the necessity of immediately re-writing in ink the matter obtained; a very severe task when the whole of the six hours of the day during which the Record Office is open have been employed in writing the matter in pencil.

"Probably your Lordship is aware that soon after Sir Francis Palgrave died, Sir Thomas Duffus Hardy, who succeeded him as Deputy Keeper, suggested to Lord Romilly the use of ink, which his Lordship permitted and which has been in use for more than twenty years.

"With regard to Rule 22, and to the first two items in the Table of Fees, we suggest that these should be modified, so that the first two items be either abolished altogether, or diminished; for they are practically prohibitive: seeing that in the case of a protracted search, the total cost amounts to a large sum."

This Memorial bore sixty-four signatures, of which seven had reference to the protest "as regards Rule No. 12" only. Among the signatories were several authors and editors of historical and topographical works, and the Hon. Secretaries of the William Salt Archæological Society and the London and Middlesex Archæological Society.

About two months later, the Master of the Rolls received the following counter-Memorial:—

"MY LORD,

HAVING knowledge of a Memorial recently addressed to your Lordship, asking that the use of ink may be again permitted in the Search Rooms of the Public Record Office, we, the undersigned, in the interests of the due preservation of our National Records, humbly beg your Lordship not to comply with the request of the Memorialists."

This counter-Memorial bore seventy-eight signatures. Among the signatories were several authors and editors of historical and topographical works, and the Principal Librarian of the British Museum, the Keeper of the Manuscripts, and three other officers of the Manuscript Department of the British Museum; Garter King of Arms, Norroy King of Arms, and six other officers of the College of Arms; the Director of the Society of Antiquaries; Bodley's Librarian; the Librarians of the Corporation of London, the Athenæum Club, the London Library, Sion College, Oriel College, Corpus Christi College, and Pembroke College, Oxford; the Director of the Folk Lore Society; one of the Secretaries of the Royal Geographical Society; and the Hon. Secretaries of the Society of Biblical Archæology, the Surtees Society, the Yorkshire Archæological and Topographical Society, the Kent Archæological Society, the Chester Archæological and Historic Society, the Bristol and Gloucestershire Archæological Society, the Harleian Society, and the Pipe Roll Society.

No change has been made in the rule as to the use of ink, and

a very slight change only has been made, during the present year, in the rule as to the payment of fees.

I beg to submit a few remarks upon the Rules and Regulations which are now in force.

(As to Rule 22.)—By the Act 1 & 2 Vict. cap. 94. sect. ix. it is enacted that the Master of the Rolls shall have power to make Rules for the admission of such persons as ought to be admitted to the use of the Records, Calendars, Catalogues, and Indexes in his custody, and to suspend, alter, or rescind such Rules, or any of them, and to fix the amount of fees (if any) which he shall think proper to be paid for the use thereof respectively, and from time to time to vary the same as he shall think fit. Every such Rule is required to be laid before both Houses of Parliament within six weeks after it is made, or after the next meeting of Parliament.

In exercise of the powers thus conferred upon him, Lord Langdale, in July 1840, made a Table of Fees to be paid for the use of the Records, Calendars, and Indexes, and a copy of this Table, which was in due course presented to both House of Parliament was given in the Second Report of Deputy Keeper of the Public Records (Appendix I. p. 15).

In July 1851, certain noblemen, gentlemen, and ladies presented a Memorial to the then Master of the Rolls, requesting that literary inquirers should be allowed to have access to the Public Records without payment of fees. Some of the reasons in favour of the proposed change were stated in the Memorial, and others were subsequently given in the Thirteenth Report of the Deputy Keeper, by Sir Francis Palgrave, who had advocated a somewhat similar proposal as far back as the year 1839. The Memorialists and the Deputy Keeper alike drew a sharp distinction between searches conducted for historical or other literary objects, and searches conducted for legal or professional purposes, and this distinction was no less clearly recognised by Sir John Romilly in his reply to the Memorial.

The result of the application was that the Master of the Rolls authorised the Deputy Keeper to grant permission to any literary inquirer to consult the Calendars, Indexes, and Records, and to take notes, extracts, or copies in pencil, without payment of fees, provided that he was satisfied that the search was to be made for a *bond fide* literary purpose. Regulations to this effect received the approbation of the Lords Commissioners of Your Majesty's Treasury in November 1851. A new Table of Fees, and a new set of Regulations for the gratuitous admission of literary inquirers to consult the Public Records, including the State Papers, were issued by the same Master of the Rolls, early in the year 1859.

The subject of the Fees was again raised, in a different manner, by Sir Francis Palgrave's successor, Mr. T. Duffus Hardy, in his Report on the proceedings in the Public Record Office during the year 1863. While defending the policy of granting to literary inquirers privileges which were denied to persons searching the Records for professional purposes, he suggested that all applicants, "whether for literary or legal purposes, should have the gratuitous

“ use of the Calendars and Records.” The advantages of such a change were not very clearly stated, but it seems to have been thought by some that literary inquirers might abuse their privilege of free search, by acting as Record Agents, and selling the information obtained gratuitously at a lower rate than that charged by others not exempt from the payment of fees. It may also have been considered that the admission of certain persons to special privileges with regard to national documents was invidious.

Any objections of this sort might, in my opinion, have been met by a rule making the exaction or the remission of fees to depend upon the character and date of the documents, and not upon the status of the persons wishing to see them. It would have been easy to draw up a list of comparatively modern records which would rarely be wanted save for legal or professional purposes, and to fix a table of fees for their production, while making the earlier records accessible to all persons alike, subject to due precautions for their safety. This course, however, was not adopted, and, so far as I am aware, it was not even proposed.

In May 1866, at or about the time of the opening of the new Search Room in the eastern part of the General Repository of Records, the Master of the Rolls abolished all fees for searches and inspection of Records, and a new set of Regulations for the conduct of business in the Search Rooms was issued two months later. (Twenty-eighth Report of the Deputy Keeper, p. iv.)

In order to remove any ambiguity, Sir George Jessel issued a revised set of Rules and Regulations, with a Table of Fees annexed, in May 1875, and these, supplemented by three Rules made by the present Master of the Rolls in April 1886, were in force until the 30th of April 1887.

Whatever may have been the object or advantage of abolishing the payment of Fees for the production of Records, in 1866, circumstances have greatly changed since then. At that time the latest Records of the Court of Chancery preserved in this Office were the Bills and Answers of the year 1800, and the series of Decrees and Orders, and that of Reports and Certificates did not extend later than the year 1700. Between the years 1868 and 1882, however, and notably in the latter of these years, large transfers were made, and at the present time this Office is the repository of all the Records of the Court of Chancery down to the year 1869 inclusive—Bills and Answers, Decrees and Orders, Reports and Certificates, Petitions and Affidavits, alike.

The reception of these books into the Public Record Office has materially altered the general character of the work done there, and in 1885 and 1886 the Legal Search Room was almost daily crowded by solicitors engaged in ordinary professional business, and persons who imagined themselves to be entitled to unclaimed funds in Chancery. The number of applications for the production of documents in that room rose consequently from 7,091 in 1872 to 18,041 in 1885, of which no less than 4,556 were for Orders, 2,045 for Bills, 1,957 for Reports, and 1,330 for Affidavits, of the Court of Chancery. In 1886, the number of applications in that room rose to 24,117.

Considering the great amount of labour thus entailed upon the staff of this Department by applications from persons working for private pecuniary advantage, it has been thought desirable to impose moderate fees upon the production of modern legal records, except in those rare cases in which they are wanted for literary purposes. Fees are charged at the Royal Courts of Justice for the production of similar Records of the Court of Chancery subsequent to the year 1869, and, under somewhat analogous conditions, at the Register Office of Wills in Somerset House.

It will be seen by the Table in § II. that the effect of Rule 22 has been to cause a sale, between the months of May and December 1887, inclusive, of Inland Revenue Stamps to the value of 102*l.* 14*s.*, thereby reducing by that amount the nett cost of the maintenance of this Department. It has also tended to reduce the number of futile applications for documents, thus accelerating the rate of production to *bonâ fide* searchers.

(As to Rule 12.)—For the first 27 years after the establishment of the Public Record Office, by Statute 1 & 2 Vict. c. 94., persons resorting to the Search Rooms for legal or literary purposes were not allowed to make copies or to take notes otherwise than in pencil. No petition or remonstrance on the subject is known to have been addressed to the Master of the Rolls or to the Deputy Keeper of the Public Records during the whole of that period. The first suggestion in favour of the use of ink seems to have been made in 1864 by the then Deputy Keeper, Mr. T. Duffus Hardy, and, two years later, the use of ink was allowed for the first time by some new “Regulations for the Search Rooms,” issued by him, and afterwards re-issued, with some modifications, by Sir George Jessel, in 1875.

Whatever force there may have been in the suggestion made by the Deputy Keeper of the Public Records in 1864, the conditions are widely different now.

Firstly, there has been a vast increase in the number of documents produced in the Search Rooms. In the Literary Search Room alone, it has risen from 12,516 in 1863 to 28,528 in 1886. In other words, the number of documents rendered liable to damage has more than doubled.

Secondly, experience has shown that a considerable number of documents have been stained with ink, which, by its colour, is known to be modern. This could hardly be otherwise. Considering that comparatively few of the records are in the form of books, and that many consist of consecutive rolls, others of a number of long strips of parchment filed together at one end, and others again of large single skins covered with writing, it is difficult even for the most careful students so to place them on the table as to be able to take extracts from them without sometimes holding a pen or pencil over them. These documents, again, which have writing on both sides, are liable to injury from ink spilt on the table no less than from ink spilt directly on them. There is reason to believe that in some instances documents have come into contact with the inky pens of persons occupying adjacent seats.

Thirdly, the invention of indelible pencils has effected a great change in the conditions under which copies or extracts can be made. Having regard to the fact that the Public Records are preserved in this office not merely for the use and profit of those who now frequent the Search Rooms, but for permanent safe custody, it might have been necessary to revert to the system which prevailed before the year 1866. Now, however, ordinary blacklead pencils are not the only alternative to ink, for indelible pencils of every variety of hardness and darkness can be obtained at a very low cost. It is known that some men of business and literary men use those indelible pencils in preference to ink, and that printers are quite accustomed to dealing with manuscripts executed with them. Samples have been subjected to the severest possible test with india-rubber, and it has been found that marks made with certain pencils can hardly be obliterated. Upon the whole it appears that careful copies made in this manner are good enough for almost all practical purposes; and it may further be remarked that persons requiring copies of exceptional clearness can have ordinary writing reproduced at a very small cost by a "type-writer." A stock of indelible pencils is now kept in the Search Rooms for the convenience of the public resorting thither.

The use of ink is not allowed in the Registry of the Court of Probate, Somerset House, where transcripts only are produced, nor ordinarily in the General Register House at Edinburgh, and the Public Record Office in Dublin.

(As to Rule 14.)—In order that the Records may be reduced to a systematic arrangement and made more easy of access, it is sometimes necessary to transfer documents, or groups of documents, from one class to another, altering the press-marks. A whole portfolio or bundle of "Miscellanea" may, moreover, entirely disappear, the contents being distributed according to their nature and date, and incorporated with other documents of a like character. New lists are from time to time made, to supersede lists which have become obsolete. Many of these older lists were drawn up before the concentration of the national archives in one Repository, and others of more recent date have been invalidated by the frequent re-arrangement of the shelves in order to provide accommodation for accruing Records. The arrangements now in progress will, I hope, be final, and I look forward to issuing, in instalments, a complete catalogue of those documents in the Record Office which are open to the public. In the meanwhile students cannot obtain any useful information from obsolete lists, and much loss of official time is likely to ensue from references being made to them instead of to those by which they have been superseded.

(As to Rule 15.)—Inasmuch as the cataloguing of documents preserved in the Public Record Office has by no means kept pace with successive transmissions thereto, large classes unfortunately remain unarranged and uncalendared. It is obviously unsafe and undesirable to produce them in bulk in the Search Rooms until they have been stamped with the official stamp, and designated by some number or mark by which they should be in future

known. And, again, it is almost equally undesirable to hinder the work of the officers by producing in the Search Rooms the very documents upon which they are engaged.

(As to Rule 7.)—The object of this Rule, which is based upon one of the Rules issued in 1866, is twofold, to provide against the loss or misplacement of documents which have been consulted in the Search Rooms, and to put all searchers upon an equality. Inasmuch as applications for the production of documents receive attention in strict order, according to the time at which they are made, a searcher applying for a considerable number of documents from different parts of the Repository might easily monopolise the services of the staff of workmen who have to find and produce them, and so interfere with the due supply to others.

Every effort is made to ensure rapid and regular production in the Search Rooms, but persons unconnected with the Office are liable to under-estimate the time necessary for the production of documents belonging to certain classes. While bound volumes of State Papers, and Rolls belonging to any of the principal series, duly ticketed, can be produced almost as quickly as printed books in a library, single documents, preserved among a large number of others, in large portfolios or bundles, in dark rooms, cannot be identified without considerable trouble, especially if they are not clearly numbered. Improvements in this direction are in progress, but, considering the vast quantity of documents to be dealt with, they can be only gradual.

I need scarcely add in conclusion that the object of the new Rules and Regulations is not to restrict the legitimate use of the Records by the public, but to protect these priceless documents from injury. Even as matters stand, some of those most frequently consulted in the Search Rooms have suffered more from wear and tear during the last twenty years than during the previous centuries of their existence.

§ V. CALENDARS, INVENTORIES, AND INDEXES.

PATENT ROLLS :

A further instalment of the Calendar of the Patent Rolls of the reign of Edward I., prepared by the late Mr. F. S. Haydon, with the assistance of Mr. H. Rodney, is printed in the Appendix (pp. 1–200). It relates to the eighth year of the reign.

I stated in my last Report (p. vii) that, owing to the pressure of other work, this Calendar would not be carried beyond the end of the ninth year of the reign of Edward I. Considering, however, the importance of the mediæval Patent Rolls as an unbroken series of registers of public affairs, I am making arrangements for a systematic Calendar of them upon a much simpler plan than that recently followed.

ANCIENT DEEDS :

Considerable progress has been made with the Calendar, or Descriptive Catalogue, which was begun in 1886, as mentioned in my last Report. A volume now in the press will give abstracts of about 5,400 deeds, being about 1,800 of each of the following series :—

Series A.—Ancient Deeds of the Treasury of the Receipt of the Exchequer, formerly preserved at the Chapter House, Westminster.

Series B.—Ancient Deeds of the Court of Augmentations.

Series C.—Ancient Deeds of the Court of Chancery, formerly preserved at the Tower of London and the Rolls' Chapel.

PAPAL BULLS :

The Inventory, or Calendar, of all the Papal Bulls preserved in the Public Record Office has been completed. The entries in it will eventually be incorporated in the Calendar of Ancient Correspondence noticed below.

RETURN OF MEMBERS OF PARLIAMENT :

The Index to the first volume, occupying 438 pages of print in folio, was almost ready for issue at the end of the year 1887.

Further additions have been made to the lists of Members of Parliament, from documents hitherto unsorted, but now added to the series to which they properly belong.

INQUISITIONES POST MORTEM :

Considerable progress has been made with the tabular Index of the Inquisitiones post mortem of the Courts of Chancery, Exchequer, and Wards and Liveries between the reigns of Henry VII. and Charles I. inclusive. It is hoped that this work will be ready for press in 1889.

ANCIENT CORRESPONDENCE :

A Calendar has been begun which will embrace all the mediæval Letters, Diplomatic Documents, Papal Bulls, and other analogous material preserved in the Public Record Office, otherwise than in the form of entries upon the great series of Chancery Rolls, such as the Patent Rolls, Close Rolls, French Rolls, Almain Rolls, Roman Rolls. It will contain, *inter alia*, fuller abstracts of the so-called "Royal Letters" than those given in Appendices to the Fourth, Fifth, Sixth, and Seventh Reports of the Deputy Keeper and in the MS. Calendar in the Search Room, and abstracts of a very great number of similar letters, hitherto inaccessible among the unsorted Records from the Tower of London, which have come to light in the course of the classification which is still in progress.

EARLY CHANCERY PROCEEDINGS :

Mr. J. E. S. B. Sharp has made considerable progress with the Calendar of Bills and Answers filed on the Equity side of the High Court of Chancery between the reigns of Richard II. and Philip and Mary, which was commenced in 1886, as stated in my last Report. A specimen of the work, dealing with part of the contents of Bundle 3, is printed, with some introductory remarks upon the character of the documents in Bundles 3 to 30, in Appendix II. (pp. 201-208). The Calendar will shortly be issued separately. Bundles 1

and 2 consist exclusively of documents which were given *in extenso* at the beginning of the first and second volumes of the "Calendar of the Proceedings in Chancery in the Reign of Queen Elizabeth," printed by command of King George IV., in 1827-1832, under the direction of the Record Commission.

Mr. Sharp's Calendar embraces not only the Bills and Answers prior to the year 1467, mentioned in the Fifth Report of the Deputy Keeper (Appendix II., pp. 38-45), but a great number of others which have been discovered within the last two years in the course of the classification already noticed. Early Bills and Answers to which no approximate date can be assigned, and others of more certain early date which may yet be found, will be calendared hereafter.

CHANCERY PROCEEDINGS:

A Calendar of Bills and Answers addressed to Sir Nicholas Bacon, in the reign of Elizabeth, supplementary to the Calendar printed in 1827-1832, has been begun.

STAR CHAMBER PROCEEDINGS:

It was stated in my last Report that a continuation of the Calendar of the Bills and Answers filed in the Court of Star Chamber in the reign of Henry VIII. had been set in hand. The portion of it done by Mr. R. F. Isaacson, in the intervals of other work, during the years 1886 and 1887, and during the early part of the present year, is printed in a tabular form in the Appendix (pp. 376-594).

DECREES AND ORDERS OF THE COURT OF EXCHEQUER:

The Chronological Index to the Entry Books of Decrees and Orders of the Court of Exchequer (Queen's Remembrancer's Department) of the reign of Charles I. has been completed, having been brought down to the 32nd volume of the Third Series of Decrees and Orders. It can now be consulted in the Legal Search Room.

CERTIFICATES OF RESIDENCE:

These documents, which form a portion of the so-called "Ancient Miscellanea" of the Exchequer, and which have hitherto been quite inaccessible to the public, have been taken in hand. In the arrangement of them an alphabetical system has been adopted, by which any document sent into the Exchequer to prove change of residence on the part of a person liable to taxation will be traced in a few minutes. These certificates range in date from the reign of Henry VIII. to that of Charles II. inclusive. Very many of them have been found to be in the last stage of decay, and the labour of repairing them will be very great.

LEASES AND PENSIONS (AUGMENTATION OFFICE):

The ancient manuscript Index to the enrolments of Leases and Pensions granted by the Crown out of the pro-

perty of the suppressed monasteries, being dilapidated by use, and otherwise defective, has been superseded by a revised list prepared by Mr. H. Rodney, under the superintendence of Mr. W. D. Selby. It is printed in the Appendix (pp. 209-375).

BILLS AND ANSWERS OF THE COURT OF EXCHEQUER :

The tabulated Calendar of Bills and Answers of the Court of Exchequer (Queen's Remembrancer's Department) of the reign of Elizabeth, begun in 1886, has been continued during the past year, and the portion of it dealing with the counties in alphabetical order up to Derbyshire was completed by the end of 1887.

MINISTERS' ACCOUNTS :

Considerable progress has been made with the exhaustive Inventory of the Accounts of the Ministers appointed to collect the rents and other issues of lands pertaining to the Crown, the commencement of which was announced in my last Report. This work, which is of great magnitude, will not be finished before 1890 at earliest.

PROCEEDINGS IN THE COURT OF REQUESTS :

A Calendar of the Bills, Answers, &c. of the Court of Requests, belonging to the reigns of Henry VII. and Henry VIII., hitherto unnumbered and inaccessible to the public, has been begun upon the system adopted with regard to the Early Chancery Proceedings.

LETTERS AND PAPERS, FOREIGN AND DOMESTIC, OF THE REIGN OF HENRY VIII. :

Mr. J. Gairdner, who has been assisted by Mr. C. T. Martin and Mr. R. H. Brodie, has proceeded with the important Calendar of all public Documents in England relating to the reign of Henry VIII. A tenth volume, which is the fifteenth instalment of this work, was published in 1887 (*see* § IX.).

STATE PAPERS, RELATING TO IRELAND, OF THE REIGN OF ELIZABETH :

Mr. H. C. Hamilton has continued his Calendar, of which four volumes have been published. More than half of the fifth volume had been passed for press by the end of the year 1887.

STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF CHARLES I. :

Mr. W. D. Hamilton had, at the end of the year 1887, almost completed the revision of the proof sheets of a volume dealing with the year 1644.

STATE PAPERS, COLONIAL SERIES :

Mr. W. Noel Sainsbury has continued his Calendar, of which six volumes have been published. A volume dealing with State Papers relating to America and the West Indies between the years 1669 and 1675 was well advanced at press at the end of the year 1887.

TREASURY PAPERS :

Mr. J. Redington has continued his Calendar, of which five volumes have been published. A volume dealing with the papers between the years 1720 and 1728 was in the press at the end of the year 1887.

HOME OFFICE PAPERS :

A Calendar of Home Office Papers of the reign of William and Mary, preserved in the Public Record Office, has been begun upon the system adopted by Mr. J. Redington and Mr. R. A. Roberts in their respective volumes of Calendar of Home Office Papers of the reign of George III.

§ VI. CLASSIFICATION AND ARRANGEMENT.

A great deal of time and attention has been devoted during the past year, as during the previous year, to the classification of documents hitherto unsorted, and the identification of documents insufficiently described, especially those of the Chancery Division. Large additions will consequently be made to some classes already existing, and some new classes are being formed. Some account of this work will be given in a future Report.

§ VII. OPERATIONS BY WORKMEN.

The following table shows the principal operations of the year 1887 :—

—	Rolls, Files, or Suits.	Bundles.	Membranes.	Leaves.	Volumes.
Numbered -	2,626	203	26,256	36,537	1,489

Stamped -	—	15	117,937	52,150	—
” -	—	—	—	40,990	

This table does not include the dusting, preliminary flattening, and ticketing of the contents of boxes and sacks of documents hitherto unsorted. The classes to which most attention has been given have been Chancery Proceedings, Court Rolls, Ancient Deeds, Ministers' Accounts, Certificates of Residence, Feet of Fines, Duchy of Lancaster Pleadings, Star Chamber Proceedings, Letters and Papers of the reign of Henry VIII., State Papers, Domestic 1642-60.

§ VIII. BUILDINGS.

The recent fixture of a lift in the main Repository of Records has facilitated the production of Documents in the Search Rooms.

I have requested Your Majesty's Commissioners of Works and Public Buildings to provide incandescent electric lights for the three Search Rooms and the adjoining passages. Application has also been made to the Lords Commissioners of Your Majesty's Treasury to sanction the removal of the small house known as 1 and 2, Rolls Yard, as being a source of danger to the adjoining buildings, and of practical inconvenience to this Department.

§ IX. THE ACT 40 & 41 VICT. c. 55.

The work of the Inspecting Officers has been continued in virtue of the first section of the above Act.

Following the Rules approved by Your Majesty in Council on the 25th of July 1882, they have further proceeded with the examination of Records of the Court of Exchequer. They have had to select one by one Documents considered worthy of preservation from a large amount of Documents of a worthless nature comprised in Schedules 7 and 8 of Records of Courts mentioned in the third section of the Public Record Office Act, 1838, and more of this work remained to be done at the close of the year 1887.

The Seventh Schedule, which was mentioned in my last Report (pp. xii and 641), was again laid before both Houses of Parliament on the 15th of February 1887.

The Eighth Schedule was laid before both Houses of Parliament on the 21st of July 1887. The Documents included in it relate principally to the business and accounts of Sheriffs. Considering the unusual length of the Appendices to this Report, I have not included this Schedule among them.

In pursuance of the first two of the Rules approved by Your Majesty in Council on the 22nd of May 1883, the First Schedule of valueless Documents existing or accruing in the Office of Your Majesty's Postmaster General (mentioned in my last Report, p. xiii) was laid before the House of Commons on the 11th of March, and before the House of Lords on the 15th of March 1887.

In pursuance of the extending Rule applicable to Departments of the Government (of which Your Majesty's approbation was declared by Order in Council on the 26th of June 1886) a Schedule of valueless Documents in the Office of the Paymaster General for the business of the Supreme Court of Judicature was also laid before both Houses of Parliament on the 28th of February 1887.

All the above-mentioned Schedules were submitted to both Houses of Parliament for a period of four weeks.

A Schedule of valueless Documents of the War Office deposited at the Public Record Office has been commenced. This will be prepared under Rule 4 of the Rules approved by Your Majesty in Council on the 22nd of May 1883, and under the Rules also approved by Your Majesty on the 25th of July 1882.

Some consideration has been given by the Inspecting Officers to the Documents to be included in the Ninth Schedule of Courts mentioned in the third section of the Public Record Office Act, 1838.

Questions from Government Departments relating to valueless Documents continue to be referred to the Inspecting Officers, and the replies to these sometimes require much consideration. Even when a Schedule has been made of valueless Documents in a particular Department, a necessity for further Schedules is liable to arise when the Department finds that there is no further use for some classes of Documents, or that some change of practice has occurred by virtue of an Act of Parliament or otherwise.

By a return obtained from Your Majesty's Stationery Office, it appears that the weight of the worthless Admiralty paper Documents relating to the administration of wages and effects of deceased Seamen and Marines, referred to in my last Report and now destroyed, amounted to 6 tons 14 cwt.

The number of worthless Documents included in the Post Office Schedule is enormous, and the quantity of waste paper, not only from that Department, but also from many others for which Schedules have been duly submitted to both Houses of Parliament, increases year after year with the expansion of the business. All this can now be legally sent to the Stationery Office, to be afterwards profitably converted into new paper.

§ X. CALENDARS PUBLISHED.

The following Volumes have been published during the year 1887 :—

CALENDAR OF STATE PAPERS, DOMESTIC SERIES, DURING THE COMMONWEALTH, preserved in Her Majesty's Public Record Office. Edited by Mary Anne Everett Green. Vol. XIII.—1659–60.

This volume brings the main series of Commonwealth papers down to the Restoration period, and so forms the connecting link between previous volumes in the same series and those dealing with the early part of the reign

of Charles II., viz., the years 1660–1667, published some years ago. The chief events of the last eleven months of the Interregnum are fully illustrated by its contents, notably the premature rising of Sir George Booth and the great precautions taken to prevent its spreading throughout the country. The volume also shows the relations of the Parliament with General Monk when commanding in Scotland, and with Montague (afterwards Earl of Sandwich) at the head of the fleet.

CALENDAR OF STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF CHARLES I., preserved in Her Majesty's Public Record Office. Edited by William Douglas Hamilton, Esq., F.S.A. Vol. XVIII.—1641–1643.

The years included in this volume are among the most remarkable in English history, embracing, as they do, the events immediately preceding and following the outbreak of the Civil Wars. It is impossible to mention here in detail the many important and interesting documents relating to this period, of which abstracts are now printed for the first time.

CALENDAR OF LETTERS AND PAPERS, FOREIGN AND DOMESTIC, OF THE REIGN OF HENRY VIII., preserved in Her Majesty's Public Record Office, the British Museum, &c. Edited by James Gairdner, Esq. Vol. X.—1536.

The first six months only of 1536 are concerned in this volume. The papers noted in it continue the narrative of Henry's difficulties with the Pope and foreign Princes arising out of the question of his divorce from Katherine, the letters of Chapuys on these and other topics being of special interest. The death of Katherine, and the trial and execution of Anne Boleyn, also fall within this period. The visitation of the religious houses in the North of England was begun early in the year, and made great progress under Legh and Layton, whose reports contain much unpublished matter about monastic life.

The number of volumes of Calendars sold for Your Majesty's Stationery Office during the year 1887 has been 410, making a total of 16,524.

At the end of the year there were eight volumes of this series in the press.

§ XI. CHRONICLES AND MEMORIALS OF GREAT BRITAIN AND IRELAND DURING THE MIDDLE AGES.

The following volumes were issued during the year 1887 :—

CHRONICA ROGERI DE WENDOVER, SIVE FLORES HISTORICARUM. Vol. II. Edited by Henry Gay Hewlett, Esq.

Keeper of the Records of the Land Revenue. (Publication sanctioned in 1884.)

This edition gives that portion only of Roger of Wendover's Chronicle which can be accounted an original authority.

THE HISTORIANS OF THE CHURCH OF YORK, AND ITS ARCHBISHOPS. Vol. II. Edited by James Raine, M.A., Canon of York. (Publication sanctioned in 1872.)

This volume contains Lives of St. Oswald, by Eadmer, Senatus, Prior of Worcester, and others. A history of four Archbishops of York, Thomas I, Gerard, Thomas II., and Thurstan, by Hugh the Chantor, is here printed in its entirety for the first time, with other prose and metrical chronicles, including that attributed to Thomas Stubbs. The long-continued struggle between the sees of York and Canterbury is well illustrated both in this and the preceding volume.

CHRONICLES OF THE REIGNS OF STEPHEN, HENRY II., AND RICHARD I. Vol. III. Edited by Richard Howlett, Esq., of the Middle Temple, Barrister-at-Law. (Publication sanctioned in 1884.)

This volume contains the "Gesta Stephani Regis," the Chronicle of Richard of Hexham, the "Relatio de Standardo" of St. Aelred of Rievaulx, the poem of Jordan Fantosme, and the Chronicle of Richard of Devizes. The preface points out many obscure events, especially in Stephen's reign, upon which these Chronicles throw entirely new light.

THE METRICAL CHRONICLE OF ROBERT OF GLOUCESTER. Edited by William Aldis Wright, Esq., M.A. Parts I. and II. (Publication sanctioned in 1868.)

The date of the composition of this Chronicle is placed about the year 1300, and the writer appears to have been an eye-witness of many events which he describes in the latter portion of the work. The language in which it is written was the dialect of Gloucestershire at that time. The first half of it is taken from Geoffrey of Monmouth and Henry of Huntingdon; William of Malmesbury appears to be the authority later on. Robert of Gloucester's Chronicle terminates abruptly in 1270, with the murder of Henry son of Richard Earl of Cornwall by Guy de Montfort.

THE LETTER BOOKS OF THE MONASTERY OF CHRIST CHURCH, CANTERBURY. Edited by Joseph Brigstocke Sheppard, Esq., LL.D. Vol. I. (Publication sanctioned in 1885.)

The Letters printed in this volume were chiefly written between the years 1296 and 1333. Among the more notable

writers were Prior Henry of Eastry, Prior Richard Oxenden, and the Archbishops Raynold and Meopham. The letters do not touch much upon the political events of the period in which they were written, their interest and importance lying rather in the pictures they present of monastic life and discipline.

CHRONICLE OF ROBERT OF BRUNNE. Edited by Frederick James Furnivall, Esq., M.A., of Trinity Hall, Cambridge, Barrister-at-Law. Parts I. and II. (Publication sanctioned in 1865.)

Robert of Brunne, or Bourne, co. Lincoln, was a member of the Gilbertine Order established at Sempringham. His Chronicle is described by its editor as a work of fiction, a contribution not to English history, but to the history of English. It was written early in the fourteenth century, and is a version, in early English rhyme, of the Chronicles of Langtoft, Geoffrey of Monmouth, and Wace, with a few additions from Bede and others.

A COLLECTION OF THE CHRONICLES AND ANCIENT HISTORIES OF GREAT BRITAIN, NOW CALLED ENGLAND, BY JOHN DE WAVRIN. 1399 to 1422. (Translation.) Edited and translated by Sir William Hardy, F.S.A., and Edward L. C. P. Hardy, Esq., F.S.A. 1864-1887. (Publication sanctioned in 1857.)

This curious Chronicle extends from the fabulous period of history down to the return of Edward IV. to England in the year 1471 after the second deposition of Henry VI. It was written towards the end of the fifteenth century, having been expressly executed for Louis de Bruges, Seigneur de la Gruthuyse and Earl of Winchester, from whose cabinet it passed into the library of Louis XII. at Blois. This volume is a translation of that portion of the original text which was published in the Rolls Series in the year 1868. It will be found interesting to English readers, as covering the two reigns of Henry IV. and Henry V., and throwing light on the important events of that period.

ICELANDIC SAGAS AND OTHER HISTORICAL DOCUMENTS relating to the Settlements and Descents of the Northmen on the British Isles. Vol. I. Orkneyinga Saga and Magnus Saga. Vol. II. Hakonar Saga and Magnus Saga. Edited by M. Gudbrand Vigfusson, M.A. (Publication sanctioned in 1874.)

These two volumes contain the entire original Icelandic texts of certain Sagas, with a very complete account by M. Vigfusson of the manuscripts consulted by him in the Libraries of Copenhagen, Stockholm, and Upsala. The translations of the text, with historical and geographical

introductions by Sir G. W. Dasent, will form Vols. III. and IV. of the work.

The number of volumes of Chronicles and Memorials sold for Your Majesty's Stationery Office during the year 1887 has been 1,680, making a total of 46,464.

At the end of the year there were 12 works belonging to this series in the press or in the binders' hands, and 8 others in course of preparation. The material reduction of the amount voted for "Calendars and Historical Documents" has again prevented the undertaking of any fresh work. It will be seen that several of the books published in 1887 had been undertaken many years ago.

§ XII. RESEARCHES IN FOREIGN ARCHIVES.

ROME:

Mr. W. H. Bliss has continued his researches in the Archives of the Vatican and other palaces. During the year 1887 he forwarded to this office 15 bundles of extracts and transcripts of documents relating to the history of Great Britain and Ireland. A summary of his proceedings is given in the Appendix to this Report (p. 595).

VENICE:

The Calendar of State Papers and Manuscripts at Venice and elsewhere in Northern Italy relating to English affairs has made progress at press during the year 1887.

SWEDEN:

Further transcripts have been received from Stockholm, pursuant to the arrangement mentioned in my last Report.

SPAIN, BRUSSELS, and VIENNA:

Don Pascual de Gayangos has continued his researches.

§ XIII. HISTORICAL MANUSCRIPTS COMMISSION.

The work of this Commission has, as in previous years, been conducted at Rolls House.

Mr. J. J. Cartwright, Secretary of the Public Record Office, and formerly Assistant Secretary to the Commission, has been appointed Secretary in the place of Mr. J. Romilly, resigned.

Some of the Clerks have been employed in calendaring the Cecil Manuscripts of the time of Elizabeth, out of office hours.

The issue of this Report had been delayed by circumstances which are not likely to recur.

All which is humbly submitted to Your Majesty.

Dated this 26th day of November 1888.

(Signed) H. C. MAXWELL LYTE,
Deputy Keeper of the Public Records.

I humbly certify to Your Majesty that this Report is made by the Deputy Keeper of the Public Records, pursuant to the 17th section of the Statute 1 & 2 Vict. c. 94.

(Signed) ESHER,
Master of the Rolls.

NO. 2.—CALENDAR OF EARLY CHANCERY PROCEEDINGS.

(Bundles 3 to 30.)

In the Prefaces to Volumes I. and II. of "Calendars of the Proceedings in "Chancery in the Reign of Queen Elizabeth," published by the Record Commissioners in 1827 and 1830, many examples are printed of earlier proceedings in Chancery, from the reign of Richard II. to that of Elizabeth, which, as the Commissioners remark, throw much light on the variations which have taken place in the procedure of the Court of Chancery, and afford considerable insight into the manners and customs, as well as the orthography and phraseology of the times. These examples were selected from the numerous Bills, &c. in Chancery, of which an Inventory is given in the Fifth Report of the Deputy Keeper (Appendix II., pp. 38-45), and which have since been carefully re arranged under Chancellors. A large number of similar documents recently found among the Chancery Miscellaneous Records has been incorporated with them, so as to form one comprehensive class of Early Chancery Proceedings, from the reign of Richard II. to that of Philip and Mary inclusive, arranged as far as possible in chronological order.

In the preparation of a complete Calendar of these Early Chancery Proceedings, the existing arrangement of the bundles has not been disturbed, except where it was found necessary for the correction of misplacements or the incorporation of new matter; but it may be mentioned that whereas, in the work above referred to, the Record Commissioners express the opinion that Chancery Bills, &c. were not regularly filed before the year 17 Richard II., a few have since been discovered of a somewhat earlier date.

The bulk of the documents described consists of Bills of Complaint only, which are usually very brief, but a few are endorsed with awards or decrees, and to some are annexed schedules, answers, replications, rejoinders, writs, examinations, depositions, &c., and it is probable that detached schedules, answers, &c. to Bills calendared may be found amongst the undated documents which have not yet been dealt with.

Writs and decrees, and sometimes examinations, and depositions, bear the date; Bills also in some instances bear a dated memorandum, but the majority can only be approximately dated by means of the name or title of the Chancellor or Keeper of the Great Seal to whom they are addressed. Where several Chancellors bear the same title, the language or the handwriting often affords the only clue to the date.

In the present Calendar, modern spellings have been given to the names of places where they could be ascertained without much research, followed by the original spellings within brackets; and it may be noted that the word "feoffee" has been in all cases used to denote one enfeoffed to the use of other persons.

The fourth column contains a brief description of the matters set forth in the Bill of Complaint; and a few notes have been added within brackets, together with dates mentioned in the text, and many cross references; but in none of these respects does the Calendar pretend to be exhaustive.

In the last column the letter *b.* stands for bill; *a.* for schedule; *r.* for answer, replication, rejoinder, &c.; *dep.* for deposition or examination, and *dec.* for decree or award. A list of the contents of each bundle prefaces the specimen Calendar.

With regard to the subject matter of the suits described in the Calendar for Bundles 3 to 30 inclusive, about one half may be said to relate to land or tenements, the remainder having reference to matters of trade, debt, assault, trespass, and a variety of other matters; the plaintiff alleging in many instances that the matter was not cognisable at common law, or that owing to the defendant's power or influence, or the "maintenance" of other persons, he could obtain no redress by the ordinary course of

law. There are also many instances of petitions to the Chancellor for the revision of actions at Common Law, in which the petitioner was defendant, and for writs of "*certiorari*" or "*habeas corpus cum causa*," to be directed to mayors, sheriffs, bailiffs, and other officers of local courts.

Matters of trade are largely dealt with, and one may note the many references to the merchants of the Hanse Company (B. 6, No. 44) of Dantzic and Prussia (Spruce); the wine merchants of Brittany and Bordeaux; and the merchants of Venice, Milan, Piedmont, Lucca, and Genoa, who do not always appear to have been welcome (B. 19, No. 22); and from B. 16, No. 97, we find that the Mayor of York was required to certify to the King the names of ships and owners trading from Hull to Iceland and Finmark. There are constant references to the wool trade, and the staple at Calais and elsewhere; and in B. 22, No. 178, we read of a loan of 10,700*l.* from the Mayor and Fellowship of the Staple to the King. In B. 19, No. 119, is given a list of captured Spanish goods, including steel, oranges and lemons, horses, &c.; and in B. 26, No. 522, there is mention of arras bought for the Duke of Bedford.

The interference of the Court of Chancery was frequently invoked in ecclesiastical disputes: suits arise out of appeals to the Court of Rome for Bulls (B. 5, No. 146; B. 6, No. 29; B. 11, No. 328; B. 27, No. 411; B. 29, No. 269), or in cases of divorce obtained on the ground of a pre-contract of marriage (B. 15, No. 175; B. 17, No. 1); and we hear of Lord Cobham and his "sect," of Commissioners against Lollardy and heresy, and riots arising therefrom, and of the burning of a book of "the great heretic Wiclif," &c. (B. 6, No. 37; B. 12, No. 177; B. 15, No. 103; B. 27, No. 394). On the other hand, a priest is cursed with "book, bell, and candle"; another is described as "a limb of the Devil," and "many Curates of Norfolk" are slain (B. 15, No. 30; B. 18, No. 34; B. 28, No. 448); the Prior of the Friars Preachers of Dunstable is "plunged in the mud" by the Prior of Dunstable; the Vicar of Cromer resists the visitation of his archdeacon by force; and the Abbots of Fountains and Meaux resist in arms a commission of reformation (B. 17, No. 279; B. 16, No. 52; B. 29, No. 159). Mention is made of pilgrimages to St. Michael's Mount in Cornwall and to Norfolk (B. 11, No. 422; B. 27, No. 354); of the foundation of Colleges at Oxford and Tonge (B. 7, No. 264; B. 17, 291), and of the reparation of churches, building of steeples, supply of bells, and the like (B. 6, No. 21; B. 7, Nos. 104 and 118; B. 11, No. 17; B. 18, No. 108; B. 24, No. 138; B. 25, No. 188; B. 27, No. 433); and in B. 12, No. 250, is given an interesting list of books, valued at 50*l.*, forming a parson's library.

Several times we meet with accusations of sorcery (B. 12, Nos. 168 and 210; B. 17, No. 260), and a scholar of Cambridge is charged with "using necromancies to make himself go invisible" (B. 11, No. 519). One may note several ancient inns in London, or what appear to be such, as the "Tabard on the Hope" at Strand Cross, the "Bole Head Tavern," the "Saracen's Head," and the "Harp" in Fleet Street the "New Inn" in "Chancellor Lane," the "Woolsack" in Bread Street, and "Bell" in Aldersgate, and mention is made of an attempted murder in the King's Mews, Charing Cross (B. 7, No. 140; B. 10, No. 326; B. 11, Nos. 216, 243, and 278; B. 15, No. 153; B. 20, No. 38). The repairs of London and Kingston Bridges form the subjects of suits (B. 15, No. 79; B. 28, No. 401); and the keepers of "the King's fowl called an Estrich" complain of injuries to their bird, and the imprisonment of their servants who were exhibiting it about the country (B. 11, No. 227).

Turning to legal matters, one may notice the constant practice of referring matters in dispute to arbitration, and of making obligations (as alleged) with only verbal conditions. We read of the incorporation of Plymouth (B. 28, No. 312); liberties

claimed by the Barons of the Cinque Ports at Great Yarmouth (B. 26, No. 566); fisheries and fishery rights (B. 5, No. 17; B. 6, Nos. 2 and 241; B. 15, Nos. 63 and 64); rights of common (B. 10, No. 24; B. 11, No. 235); water rights granted to the Charter House (B. 18, No. 164); seizure of goods "as for a wytherbode" (B. 12, No. 41); many cases of the sale of wardships and marriages; a breach of promise of marriage action (B. 11, No. 93); purchase of a manumission from villenage from the Prior of Ely (B. 20, No. 134); and the purchase of a horse by weekly payments, and warranty (B. 11, No. 115; B. 28, No. 437). The general lawlessness of the times is evidenced by the frequency of violent assaults, and we hear of Irishmen and Welshmen employed to commit various outrages (B. 7, No. 23; B. 12, No. 251), and of a writ-server compelled to "eat both wax and parchment" (B. 15, No. 198).

Several wills are quoted, including an extract from that of Sir John Fastolf (B. 29, No. 277); and others are referred to, amongst which is that of Maud, late wife of Thomas Chaucier, late chief butler of England (B. 17, No. 193). In one instance a will is described as a "William" (B. 17, No. 114). Richard Lematon, of York, brings a suit on an alleged bond for procuring the offices of Warden of the Mint and Chancellor of the Exchequer, annexed to which is a curious deposition of John Somersett (Chancellor of the Exchequer?) (B. 19, No. 60). Privilege of Parliament is claimed for William Derykson, a Dutchman, servant to a Member of Parliament, against an action for debt (B. 22, No. 101).

The ransom of prisoners taken at the battle of Agincourt is the subject of a suit B. 6, No. 76; and we read of other prisoners of war being "put to finance." In B. 6, No. 80 mention is made of jewels given by the King for service in France; in B. 26, No. 475, of the wages of a spearman; and in B. 27, No. 397, of the attendance of a surgeon at the battle of Sherborne. Several references are made to "the traitor Cade" and his insurrection (B. 16, Nos. 230 and 453; B. 19, Nos. 134 and 380), &c.; and there are various suits for lands, &c., by Elizabeth, widow of Sir John Grey, afterwards Queen of Edward IV. (B. 27, Nos. 250 and 270); and by other Royal personages or persons of distinction.

Many other matters of interest might be noted, but the above may serve to illustrate the varied nature of the subjects dealt with.

No. 3.—AUGMENTATION OFFICE RECORDS. INDEX TO ENROLMENTS OF LEASES AND PENSIONS. HENRY VIII. TO JAMES I.

The Index here printed is based on an ancient MS. Index which has for more than two centuries served as a guide to the contents of certain volumes among the so-called "Miscellaneous Books" of the abolished Court of Augmentations. The volumes so indexed are occupied for the most part with the enrolments of leases and pensions granted by the Crown out of the lands and revenues acquired by the dissolution of the Monasteries in the reign of Henry VIII. The ancient Index had, however, in the course of time become so dilapidated by frequent use that, during the present century, the leaves had to be inlaid in order to protect them from further damage. Before this operation was carried out portions of the leaves had become worn or torn away and thus many of the references had been lost. Moreover, this ancient compilation was, on examination, ascertained to be defective, and misleading in other respects, so that it was found to be necessary to revise the entire work and, in order to make it complete, to index a number of additional volumes which were not referred to in the old Index.

The present Index, therefore, includes, it is believed, all the hitherto unindexed leases and pensions that are entered in the Augmentation Office "Miscellaneous Books."

The following is a complete list of the volumes included in this Index, with the dates of the volumes and their lettering:—

* If the lease sought for should not be found in the above Index the following volumes may also be searched:—

Index No. 347. One volume, MS., temp. Eliz., referring to the "Enrolments of Leases," arranged alphabetically under places.

Index No. 348. Four volumes, MS., temp. Elis.-Jas. I., referring to the "Particulars for Leases," arranged alphabetically under counties and places.

Index No. 349. One volume, MS., 1584 to 1592, referring to the "Particulars for Leases in Reversion" (in three portfolios), arranged chronologically, with an Index Locorum.

Index No. 350. One volume, MS., Elis.-Jas. I., entitled "Supplemental Calendar to Transcripts of Leases," and referring to the "Counterparts" or "Transcripts of Crown Leases," arranged alphabetically under places.

Index No. 360. A calendar to the leases, various dates, granted by the respective monasteries before their dissolution, with an Index Locorum.

Index No. 363. Calendar of leases of the Court of Surveyors General, 34 to 38 Henry VIII., enrolled in volume 230 of the "Miscellaneous Books" of the Augmentation Office. This calendar is printed in the Appendix to the 25th Report, pp. 1 to 23.

† Vol. 230 is calendared in the 25th Report, Appendix, pp. 1-23; vol. 231 is a repertory.

Leases.—The principal series of volumes of "Enrolment of Leases" in the above List came into existence under the seventh section of the Act establishing the Court of Augmentations (27 Hen. VIII. c. 27), which enacted that the "Clerke of the said Court shall enroll and registre in a *greate boke in parchment* all and every those giftes, grauntes, releases, confirmacions, lessees, letters patentes and all other writings which shalbe made and graunted under the Greate Seale, and also the day tyme and yere of the surrendre of any of theym, whan any such surrendre shall happen; which *registre of enrolmentes* shall remayne and be safely kepte in the said Courte as a recorde to the Kinges use by the appoyntement of the said Chauncellour."

At first sight it might appear to some that an Index *Locorum* to these enrolments is more wanted than the Index *Nominum* provided below; but this is not really the case, inasmuch as the series of rolls known as "Ministers' Accounts" readily enables the searcher to trace any property under its county, or under the monastery to which it belonged, and the lessees' names being given in these rolls when lands were granted out by the Crown, an Index *Nominum*, in most instances, is all that is required to trace a lease in the Augmentation Office registers.

Pensions.—Hitherto the subject of monastic pensions has not received much attention, and, by many good authorities, it has been considered that little or no provision was made for the dispossessed monks and others. The volumes now indexed throw considerable light on the subject. According to the 8th section of the Act for the dissolution of the religious houses under the clear yearly value of 200*l.* it was provided that:—

"In consyderacion of whiche premysses to be had to his Highnes and to his heires as ys aforesaid, his Majestye ys pleased and contentyd, of his most excellent charyte, to pryvyde to every Chief Hed and Governour of every suche Relygyous House duryng ther lyves, suche yerely pencions or benefices as for ther degrees and qualytyes shalbe reasonable and convenient, wherein his Highnes wyl have most tender respect to suche of the seid Chief Governours as well and truly conserve and kepe the goodes and ornamentes of thier Houses to the use of his Majestie without spoyle waste or enbeavyng the same; and also his Majestye wyl ordeyne and pryvyde that the Covenantes of every suche Relygyous house shall have ther capacytes if thei wyl to lyve honestlye and virtuouslye abrode, and some convenient Charytie dysposed to them toward ther lyvyng, or elles shalbe commytted to suche honorable greate Monasteries of this Realme wherein good Relygyon ys observed as shalbe lymtyed by his Highnes, ther to lyve Relygyously duryng ther lyves."

The enrolments here indexed show, more especially those in volumes 232 to 236, the nature of the pensions thus granted. But, in addition to these volumes, which give the pension-grants *in extenso*, attention may be particularly directed to vols. 245 and 246 of the same series, which contain full returns of the inmates of various houses together with the amount of the pensions assigned to each individual.* These amounts varied considerably, as may be seen by the following notes made during the progress of the work:—

* The "Ministers' Accounts" and "Clerical Subsidy Rolls" also contain much information relating to pensions.

The average pension granted to a monk seems to have been about 6*l.* 13*s.* 4*d.*, an amount which would, perhaps, represent about 50*l.* at the present time.

That these pensions when granted were also actually paid may be proved by another series among the same class of "Miscellaneous Books" (Payments and Annuities, Nos. 248 to 262). These show the periodical half-yearly or quarterly payments of the sums due, and over and above this evidence there is preserved among the miscellaneous documents of the Queen's Remembrancer's Department of the Exchequer a large collection of original receipts given by monks on account of their pensions.

But besides the Augmentation Office Books, it has been thought desirable to include in the present Index four volumes noticed in the second Appendix to the Second Report of the Deputy Keeper (pp. 206, 207). These four volumes are described as "Enrolments, or Books of Entry, of Letters Patent," and were formerly in the custody of the Comptroller of the Exchequer. In the Report mentioned the following note appears with regard to them:—

"It appears that these four volumes, Nos. 4-7, were written upon the abolition of the Court of Augmentations, when the numerous pensions, formerly paid there, were made payable at the Receipt of the Exchequer. The patents authorising the payment were necessarily entered with the Auditor of the Receipt; and it is probable that the two sets of books here described (Nos. 4 and 5, Nos. 6 and 7) were set apart for the more ready despatch of the accumulating business. It is manifest, from an entry in No. 6, that these books were kept for the sole purpose of entering Patents relating to the Court of Augmentations; for a grant of the office of Lord High Admiral to William, Lord Howard of Effingham, having been entered at *f.* 1726-3, it was cancelled, and thus marked, 'Cancellatur quia non debet hic intrari.'"

These volumes are now classified as Auditor's Patent Books among the Records of the Exchequer of Receipt, and range from 1538 to 1553.

The following additional notes may also conveniently find a place here. Among the so-called "Suppression Papers," under date 31 Henry VIII., is a volume, or rather a portion of one (Bundle 832, No. 17), thus described:—

"Com. Ebor.—A book relating to various religious houses in the county of York, containing memoranda relating to the names, ages, wages, rewards, and pensions of monks and nuns, and of the servants of the said houses; also names of tenants, amount of rental and other particulars relating to the possessions held by them.

Copies of indentures of lease and grants.

Debts owing to the houses.

Descriptions of the houses.

Original letters to the King's Commissioners relating to possessions of the said houses, &c.

The names are hereafter inserted in the order in which they are arranged in the book, viz.:—

Eschoft, Prioratus de.

Thirked *alias* Thyrkhed, Monasterium de.

Wilberfoss, Monasterium de.

Yeddyngham, Prioratus de.

Wykhame, nuper Prioratus.

Gro[s]monte, Prioratus de.

Hampall, Prioratus de.

Kirkley, Prioratus de.

Arthyngton Abbey.

Hull, the Charterhouse Priory. [A book of 200 written leaves, repaired throughout.]"

In a bag known as the "Augmentation Bag" (Box 154), among the Chapter House records, are the following:—

No. 54. Cambridge.—Commission and return thereto respecting annuities, &c., of pensioners of the dissolved monasteries. 6 Edw. VI.

No. 63. Durham, Bishoprick.—Commission out of the Court of Augmentation to inquire as to the deaths and payments of the pensioners of religious houses. Return of the Commissioners thereto. 6 Edw. VI.

No. 4.—CALENDAR OF STAR CHAMBER PROCEEDINGS.

When the arrangement of the records of the Court of Star Chamber was taken in hand at the Chapter House, Westminster, attention was in the first instance directed to the Bills and Answers of the reign of Elizabeth, and a Calendar was prepared dealing with some 48,000 suits, arranged under the initial letters of the plaintiffs' names. (Seventeenth Report of the Deputy Keeper of the Public Records, p. 8.) Some progress was also made with the reign of Henry VIII., the documents being arranged alphabetically under the plaintiffs' names from "Ab" to "Gy," and bound in 16 volumes, for which a Calendar was subsequently prepared. (Nineteenth Report of the Deputy Keeper, p. 18.) At this point, however, the work was suspended, partly in consequence of the retirement of the officer who was engaged upon it. For want of a calendar, or index, the remaining documents of the reign of Henry VIII., and all those of the two succeeding reigns, have remained practically useless to students.

The following Calendar deals with the contents of Bundles 17 to 26 inclusive, which immediately follow the 16 volumes already mentioned. It gives more information as to the subjects of the different suits than was given in the manuscript Calendar for the first 16 volumes; but, on the other hand, no attempt has been made to arrange the documents in alphabetical order, as such an arrangement would have involved considerable delay. By reference to the "county" column, the Calendar can be examined rapidly by anyone searching for information about a particular family or place.

The Court of Star Chamber, as it existed during the Tudor period, seems to have derived its authority from the Statutes 3 Henry VII., cap. 1, and 21 Henry VIII., cap. 20. The first of these recites that the orderly government of the realm was impeded by unlawful maintenances, giving of liveries signs and tokens, and retainers by indentures promises oaths and writings, or other embraceries, untrue demeaning of sheriffs in the returns and panels of juries, riots and unlawful assemblies, and it enacts that the Chancellor, the Treasurer, and certain other dignitaries should have power to summon persons so offending, and others, and to punish the misdoers just as if they had been convicted in the due course of law. The second statute enlarges the tribunal.

Most of the suits enumerated in the following Calendar relate to offences specified in the statute 3 Henry VII., cap. 1, riots and unlawful assemblies being the most common. The evidence of these records tends to show that in the reign of Henry VIII. the action of the Court of Star Chamber was by no means oppressive, and that it rather provided security for the humbler members of the community against oppression by their richer or more powerful neighbours. There are, however, instances of juries being prosecuted for their verdicts.

The value of these records for legal purposes is, unfortunately, much diminished by the loss of the Orders of the Court, so that it is now impossible to ascertain the result of any particular suit, or the truth of the statements made on either side. Cases of importance may, however, sometimes be traced in the records of other courts. On the other hand, the briefest examination of the Calendar shows the value of these documents as furnishing genealogical and topographical information, and illustrating the manners and customs of the sixteenth century.

No. 5.—REPORT MADE TO THE RIGHT HONOURABLE THE
MASTER OF THE ROLLS.

MY LORD,

Rome, December 30th, 1887.

I beg to submit to your Lordships the following report for the year 1887 :— In the first six months I sent 278 transcripts and 1,680 abstracts of documents. In the second six months I have sent 163 transcripts and 1,185 abstracts of documents. Most of the transcripts are of papers of the years 1600 to 1650, from the volumes of the Nuntiations of France, Spain, and Brussels. The abstracts of documents are from the Regesta of Benedict XII. (1334–1342), Clement VI. (1342–1352), and Innocent VI. (1352–1362). There remain many documents of Clement VI. to be sent next year.

As the reports up to this date have been written after the transcripts were sent to the Public Record Office I have been able to do little more than indicate the sources from which they have been made, I now beg to be permitted to give some account of the papers on which I am at work, and which will be sent next year.

The series of Regesta of Clement VI. is a long one, and among the abstracts of the letters of the sixth year of that pontificate will be found appointments to the sees of Armagh, St. David's, Dunkeld, and Dumblane; letters to the Abbots of Malmesbury and St. Augustine's, Canterbury, to the bishops of Ossory, Chichester, Wells, and Lincoln. William Spersholte, monk of Winchester, is ordered "*mitti ad studium quam primo.*" Queen Philippa's vow to visit Compostella is commuted. Francesco Orsini is a conspicuous pluralist and absentee. Johanna, daughter of Edmund earl of Kent and wife of Thomas de Holand, has a suit against William de Montacute. Two benefices in the diocese of Ely are united to Clare College, Cambridge, and provision is made for the chapel. The King is urged to make restitution to the bishop of Ossory. Richard earl of Arundel and Isabella are cited to Rome. Philip de Weston is not to be admitted dean of York. Marriage dispensations are granted to Guy de Pontefort and Catherine daughter of Thomas earl of Warwick, to Nicholas Alard of Winchelsea and Margaret Winch, to Robert de Stratgrif and Elizabeth More, to John Napton and Isabella Jordan, to John earl of Kent and Elizabeth daughter of William count of Juliers, to John de Mowbray and Elizabeth de Segrave, to John de Segrave and Blanche Mowbray, to William Mowbray and Helen le Chien. In writing these names I have given the spelling of the Regesta.

In the seventh year of Clement VI. appointments are made to the sees of Canterbury, Tuam Ardfer, Leighlin, Aghadoe, Moray, and Soder. Pestilence raged in the dioceses of Lincoln and Lichfield and Coventry. Four benefices are united to Pembroke, Hall, Cambridge.

In the eighth year of Clement VI. the Jubilee is published. Letters are addressed to the archbishops and bishops warning them against the Flagellants. Appointments are made to the sees of St. David's, Worcester, and Dublin.

In the second, third, fourth, and fifth years of Gregory XI. (1370–1378) the usual demands for subsidies are made upon the bishops. Endeavours are made to bring about a peace between the Kings of England and France, and many letters are written to various persons interested on either side.

There are several letters from the Pope to Sir John Hawkwood and other English mercenaries thanking them for their services, and telling them how to fight their battles. It may be that Giovanni Aguti and his friends when they read, or had read to them, these letters thought they knew their own business best, and would rather have had prompt payment than advice and instructions.

In the second year of Urban VI. (1378–1389) the archbishop of Canterbury is warned against falsifications of papal letters made by Stephen de Cusentia. In the third year the Guineuses appear as receivers of money collected by the papal agents in England. In the fifth year letters are written to John duke of Lancaster against the King of Castile and Leon and the pseudo-pope Robert (Clement VII.). In the eleventh year the papal collector in England is ordered to pay a thousand florins for the stipends of the English mercenaries in Italy.

I have begun to examine a series of above one hundred volumes of Regesta of Boniface IX. (1389–1404) temporarily placed in the Vatican Archives. In these

I have already found several letters addressed to William of Wykeham, bishop of Winchester, granting petitions made by him to the Pope for privileges and concessions in favour of his two Saint Mary Winton Colleges.

I have the honour to be,

My Lord,

Your Lordship's obedient humble servant,
(Signed) WILLIAM H. BLISS.

THE FIFTIETH REPORT
OF
THE DEPUTY KEEPER OF THE PUBLIC
RECORDS.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY,

I RESPECTFULLY beg leave to submit to Your Majesty a Report of the proceedings in the Public Record Office during the year 1888; pursuant to the Act 1 & 2 Vict. c. 94. § 17.

I have again to mention the resignation of a senior officer of the Department, and consequent changes in the position of others. Mr. Hans Claude Hamilton, the officer in question, was employed by the Board of Commissioners on the Public Records as far back as the year 1834, and in March 1838 he was appointed a temporary clerk to assist the Board of Commissioners for printing and publishing State Papers. Upon the amalgamation of the State Paper Office with the Public Record Office in 1854, he was placed upon the permanent staff, and in the next year he was promoted to the Second Class. His ultimate appointment as an Assistant Record Keeper of the First Class dates from February 1866. He resigned his place on the 31st of March 1888. During the greater part of Mr. Hamilton's official career he was engaged upon documents of the sixteenth and seventeenth centuries, and he has edited a Calendar of State Papers relating to Ireland, of which four volumes, dealing with the period from A.D. 1509 to 1592 inclusive, have been published at intervals. A fifth volume only awaits a preface, which Mr. Hamilton has undertaken to write. (*See § V.*)

The vacancy among the Assistant Record Keepers, caused by Mr. Hamilton's retirement, has been filled by the promotion of Mr. C. Trice Martin, B.A., previously a Senior Clerk. Mr. A. Hughes, B.A., and Mr. C. G. Crump, B.A., have been transferred from the Secretary's Department of the General Post Office to fill two vacancies among the Junior Clerks.

§ I. RULES AND REGULATIONS.

The following additional Rules and Regulations were made on the 21st of July 1888, and laid before both Houses of Parliament within six weeks, as required by the ninth section of the Public Record Office Act, 1838 :—

“ ADDITIONAL RULES AND REGULATIONS made by the MASTER OF THE ROLLS respecting the public use of the RECORDS and DOCUMENTS in his custody.

“ 23. The fees for inspecting Records of any Court of Law or Equity of a later date than the year 1760 shall be remitted in the case of any barrister desiring to consult such records for the purpose of obtaining instruction for himself, or for literary use, or to use as citations by way of authority to the Court, and not for the purpose of obtaining information as to facts to be used by or between other parties.

“ ADDITION TO THE TABLE OF FEES.

Do. 45 Vict. 9 Bundles.

§ V. CALENDARS, INVENTORIES, AND INDEXES.

PATENT ROLLS:

A further, and final, instalment of the Calendar of the Patent Rolls of the reign of Edward I., prepared by the late Mr. F. S. Haydon, with the assistance of Mr. H. Rodney, is printed in the Appendix (pp. 1–266). It relates to the ninth year of the reign.

I stated in my last Report (p. xiv.) that, although this Calendar would not be carried beyond the point now reached, I was making arrangements for a systematic Calendar of the Patent Rolls upon a much simpler plan than that recently followed, and I have now to add that these arrangements have been in operation for some months. Reserving for future consideration all questions as to the best manner of dealing with those rolls of the reigns of Henry III. and Edward I., to which there is no satisfactory Calendar, I have caused the early rolls of the reigns of Edward II. and Edward III. to be taken in hand simultaneously. Identical instructions have been given to the different officers employed upon the Calendar, so as to ensure uniformity of treatment and phraseology, and the work is proceeding satisfactorily. A volume dealing with the first three or four years of the reign of Edward III. will, I hope, be published in the early part of 1890.

ANCIENT DEEDS :

Further progress has been made with the Calendar, or Descriptive Catalogue, which was begun in 1886, as mentioned in my last two Reports. A volume now in the press will give abstracts of about 5,400 deeds, being about 1,800 of each of the following series :—

Series A.—Ancient Deeds of the Treasury of the Receipt of the Exchequer, formerly preserved at the Chapter House, Westminster.

Series B.—Ancient Deeds of the Court of Augmentations.

Series C.—Ancient Deeds of the Court of Chancery, formerly preserved at the Tower of London and the Rolls' Chapel.

A considerable amount of material has been prepared for a second volume of the Descriptive Catalogue.

RETURN OF MEMBERS OF PARLIAMENT :

The Index to the first volume, extending to 438 pages of print in foolscap folio, was issued in 1888, with 42 pages of additional names found since the issue of that volume, and five pages of corrigenda to those given therein.

The Index to the second volume was in the press at the end of the year 1888.

INQUISITIONES POST MORTEM :

Further progress has been made with the tabular Index of the Inquisitiones post mortem of the Courts of Chancery, Exchequer, and Wards and Liveries between the reigns of Henry VII. and Charles I. inclusive. The work has, however, been delayed by the serious illness of the officer under whose direction it was being executed.

ANCIENT CORRESPONDENCE :

A considerable amount of time has been devoted to the Calendar of mediæval Letters, Diplomatic Documents, Papal Bulls, and other analogous material, the beginning of which was announced in my last Report.

EARLY CHANCERY PROCEEDINGS :

Further progress has been made with the Calendar of Bills and Answers filed on the Equity side of the High Court of Chancery between the reigns of Richard II. and Philip and Mary, which was commenced in 1886. A specimen of the work was given in my last Report, and I there stated that it would shortly be issued in a separate form. The publication of the section executed by Mr. J. E. S. B. Sharp has,

however, been delayed by the recent discovery of further documents belonging to the same class, which it was necessary to incorporate. Careful examination, moreover, shows that some of the documents already included in the class are not strictly Chancery Proceedings, and that the Calendar will consequently require some change of form before it can be issued.

CHANCERY PROCEEDINGS :

Considerable progress has been made with the tabulated Calendar of Bills and Answers addressed to Sir Nicholas Bacon, in the reign of Elizabeth, supplementary to the Calendar printed by command of King George IV., in 1827-1832, under the direction of the Record Commission.

CERTIFICATES OF RESIDENCE :

The arrangements of these documents in alphabetical order, as mentioned in my last Report, has been much delayed by the necessity of repairing many thousands of them before dealing with them in the proposed manner.

MINISTERS' ACCOUNTS :

Further progress has been made with the exhaustive inventory of the Accounts of Ministers appointed to collect rents and other issues of lands. Considering the vast number of these documents preserved in the Public Record Office, it has been thought expedient to divide the Inventory into two sections, so that part may be made available before the completion of the whole, and the First Section, enumerating all the Ministers' Accounts prior to the reign of Henry VII., will be issued as a separate publication in 1890.

COURT ROLLS :

A comprehensive Inventory of all the Manorial Rolls preserved in the Public Record Office has been commenced upon the system adopted for the Inventory of Ministers' Accounts. This will also be published in 1890 unless a great number of additional Rolls be found in the course of the systematic classification of documents now in progress.

PROCEEDINGS IN THE COURT OF REQUESTS :

Considerable progress has been made with the tabulated Calendar of the Bills, Answers, &c. of the Court of Requests, belonging to the reigns of Henry VII. and Henry VIII., hitherto unnumbered and inaccessible to the public, as mentioned in my last Report.

LETTERS AND PAPERS, FOREIGN AND DOMESTIC, OF THE REIGN OF HENRY VIII.:

Mr. J. Gairdner, who has been assisted by Mr. R. H. Brodie, has proceeded with the important Calendar of all historical Documents in England relating to the reign of Henry VIII. An eleventh volume, which is the sixteenth instalment of the work, was published in 1888 (*see* § X.).

STATE PAPERS, RELATING TO IRELAND, OF THE REIGN OF ELIZABETH:

The text of the fifth volume of Mr. H. C. Hamilton's Calendar was completed at press in the course of 1888, and at the end of the year the Index was also in the printers' hands. Since Mr. Hamilton's resignation, another officer of this Department has been appointed to prepare the materials for a sixth volume of this Calendar.

STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF CHARLES I.:

A volume of Mr. W. D. Hamilton's Calendar, dealing with the first nine months of the year 1644, was published in 1888. (*See* § X.) The editor has also prepared materials for another volume, which was in the press at the end of the the year.

STATE PAPERS, COLONIAL SERIES:

The volume of the Calendar dealing with State Papers relating to America and the West Indies between the years 1669 and 1675, which was mentioned in my last Report as well advanced at press at the end of the year 1887, was still in the press at the end of 1888, under the editorship of Mr. W. Noel Sainsbury, an Assistant Record Keeper.

TREASURY PAPERS:

The volume of Mr. J. Redington's Calendar of the papers between the years 1720 and 1728, mentioned in my last Report, was almost ready for issue at the end of 1888.

HOME OFFICE PAPERS:

Some progress has been made with the Calendar of the Home Office Papers of the reign of William and Mary preserved in the Public Record Office, but the officer engaged upon it has been much impeded by the pressure of other work connected with the Admiralty Records.

§ VI. CLASSIFICATION AND ARRANGEMENT.

A great deal of time and attention has been devoted during the past year, as during the two previous years, to the classification of documents hitherto unsorted, and the identification of documents insufficiently described, especially with respect to the early records of the Chancery Division. Large additions have been made to the classes known as Royal Letters; Parliamentary Petitions; Early Chancery Proceedings; Chancery Proceedings, Series II., and other classes already existing; and several new classes are being formed. Some account of this important work will be given in a future Report.

The Classes to which most attention has been given have been Chancery Proceedings (Early and Series II.), Privy Seals and Signed Bills (Henry VIII.—Charles I.), Ancient Deeds, Royal Letters, Parliamentary Proxies from the Clergy, Feet of Fines, Certificates of Residence, Lay and Clerical Subsidies, Court Rolls, Letters and Papers, Henry VIII., Star Chamber Proceedings, and Proceedings in the Court of Request, Records, &c.

§ VIII. BUILDINGS.

In further correspondence during the year 1888, I have urged upon the Lords Commissioners of Your Majesty's Treasury and Your Majesty's Commissioners of Works and Public Buildings

the desirability of providing incandescent electric lights for the three Search Rooms and the adjoining passages, and of removing the small house known as 1 and 2 Rolls Yard, as being a source of danger to the adjoining buildings and of practical inconvenience to this Department. The result will be stated in my next Report.

§ IX. THE ACT 40 & 41 VICT. c. 55.

The work arising under the first section of the above Act has been proceeded with, as in previous years.

The selection of documents worthy of preservation from among documents of no value, comprised in Schedules 7 and 8 of Records of Courts mentioned in the third section of the Public Record Office Act, 1838 (as noticed in my last Report), has been completed.

The Ninth Schedule of Documents not of sufficient value to justify their preservation in the Public Record Office, which formerly were, or ought to have been, in the Offices of the King's or Queen's Remembrancer, and of the Clerk of the Pipe, or other offices of the Court of Exchequer (mentioned in my last Report as under consideration), was duly approved and laid before both Houses of Parliament on 29 June 1888. It was, however, temporarily withdrawn before it had lain before Parliament for the prescribed period.

A third Schedule of Documents in the Patent Office, prepared under the first of the Rules approved by Your Majesty in Council on 22 May 1883, was submitted to the Inspecting Officers, and considered. After careful examination of the items, it was agreed that no further action in relation to this Schedule should be taken at present.

A second Schedule of valueless Documents in the Office of Your Majesty's principal Secretary of State for the Home Department was presented to the House of Commons on the 10th of May 1888, and to the House of Lords on the following day, and it lay upon the tables of both Houses for the full period of four weeks.

Further progress in the examination and consideration of the Exchequer Documents has for the present been suspended, and an examination of the War Office Documents deposited in the Public Record Office has been commenced, upon a presumption that they may be more quickly dealt with than the Exchequer Documents, and that, as the result, more space may be set at liberty.

As stated in my last Report, questions relating to documents in different Government Departments continue to be referred to the Inspecting Officers.

§ X. CALENDARS PUBLISHED.

The following five volumes were issued during the year 1888:—

CALENDAR OF STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF CHARLES I., preserved in the Public Record Office. Edited by William Douglas Hamilton, F.S.A., of the Public Record Office. Vol. XIX.—1644.

The documents calendered in this volume extend over the first nine months of the year 1644. The greater portion of them relate to military affairs, especially the three memorable campaigns of that period: that of Sir William Waller against the King's army near Oxford, resulting in the battle of Cropredy Bridge; that of the Earl of Essex in the West, resulting in the loss of his army; and that of the combined English and Scottish armies in Yorkshire, culminating in the battle of Marston Moor.

CALENDAR OF THE PROCEEDINGS OF THE COMMITTEE FOR ADVANCE OF MONEY, 1642-1656, preserved in the Public Record Office. Edited by Mary Anne Everett Green. Parts I., II., and III.

This work, which may be reckoned as the fourteenth volume of the Calendar of State Papers of the Domestic Series for the period of the Commonwealth, deals exclusively with the proceedings of the Parliamentary Committee for the Advance of Money. The papers noticed therein are mainly of personal and local interest, and they show the fines inflicted upon certain Royalists, the estates held by them, and in some cases the particular offences against the Parliament which caused the imposition of the fines. Occasionally the depositions will be found to contain information of wider historical interest in connexion with the great Civil War, such as particulars of the proceedings before and after the battle of Worcester.

LETTERS AND PAPERS, FOREIGN AND DOMESTIC, OF THE REIGN OF HENRY VIII., preserved in the Public Record Office, the British Museum, and elsewhere in England. Arranged and Catalogued by James Gairdner, an Assistant Record Keeper. Vol. XI.—1536.

The most important domestic affairs dealt with in this volume are the suppression of the smaller monasteries, and the consequent insurrections in Lincolnshire and Yorkshire, known as the "Pilgrimage of Grace." The documents relating to these events are full of interesting

details, many of which are here brought to light for the first time, and the abstracts and extracts from them are given at such length that the volume covers a period of only six months, from July 1536 to the end of the year.

The number of volumes of Calendars sold for Your Majesty's Stationery Office during the year 1888 was 497, making a total of 17,021.

At the end of the year there were seven volumes of this series in the press.

§ XI. CHRONICLES AND MEMORIALS OF GREAT BRITAIN AND IRELAND DURING THE MIDDLE AGES.

The following seven volumes were issued during the year 1888 :—

THE TRIPARTITE LIFE OF ST. PATRICK, with other Documents relating to that Saint. Edited, with translations and Indexes, by Whitley Stokes, D.C.L., LL.D., Hon. Fellow of Jesus College, Oxford, Correspondent of the Institute of France. Parts I. and II. (Publication sanctioned in 1883.)

This book contains the three Irish homilies on Patrick, son of Calporn, which are commonly called the Tripartite Life of St. Patrick, together with such other ancient Documents as seemed likely to elucidate his biography. The text of the Tripartite Life is here printed for the first time, though a Latin version was published by John Colgan as long ago as 1647, and an English version by Mr. W. M. Hennessy was included in Miss Cusack's Life of St. Patrick, issued in 1870. Other documents printed here are taken from the Book of Armagh, the *Lebar Brecc*, and other Irish manuscripts.

WILLELMI MALMESBIRIENSIS MONACHI. DE GESTIS REGUM ANGLORUM, LIBRI QUINQUE; HISTORIÆ NOVELLÆ, LIBRI TRES. Edited by William Stubbs, D.D., Bishop of Oxford, Honorary Student of Christ Church, Oxford. Vol. I. (Publication sanctioned in 1883.)

This, the first of two volumes, contains the text of the first two books of William of Malmesbury's "*Gesta Regum*," with an elaborate Preface, defining the importance of the author's position, giving particulars of his age and extraction, with a sketch of his life and studies, and an account of the different manuscripts used by the present Editor.

ROBERT DE WENDOVER, FLORES HISTORIARUM, from the year 1154. Edited by Henry G. Hewlett, Keeper of the Records of the Land Revenue. Vol. II. (Publication sanctioned in 1884.)

This edition gives that portion only of Roger of Wendover's Chronicle which can be accounted an original authority. The previous volume was published in 1887 and the work extends to three volumes altogether.

YEAR BOOKS OF THE REIGN OF KING EDWARD THE THIRD. Year XIV. Edited and translated by Luke Owen Pike, M.A., Barrister-at-Law. (Publication sanctioned in 1879.)

This volume, like its predecessors in the same series, helps to fill up the gap which extends in the old series of printed Year Books from the 10th to the 17th year of Edward III. Its contents, like those of preceding volumes, are reports in Norman French of cases argued and decided in the courts of Common Law, which may be regarded to a great extent as the "lex non scripta" of England. They also afford biographical and historical information, and throw light on the manners and customs of the fourteenth century.

THE LETTER BOOKS OF THE MONASTERY OF CHRIST CHURCH, CANTERBURY. Edited by J. Brigstocke Sheppard, LL.D. Vol. II. (Publication sanctioned in 1885.)

The Letters printed in this volume were chiefly written between the years 1333 and 1373. They do not touch much upon the political events of the period, their interest and importance being rather in the pictures which they present of monastic and ecclesiastical life. A third volume, now in the press, will complete the work.

LESTORIE DES ENGLIS, SOLUM LA TRANSLACION MAISTRE GEFFREI GAIMAR. Edited by the late Sir Thomas Duffus Hardy, D.C.L., Deputy Keeper of the Records, and Charles Trice Martin, B.A. Vol. I. (Publication sanctioned in 1878.)

This volume contains the early French text of Gaimar, a fragment in Latin concerning Ælla, King of Northumbria, and a life of Herward, also in Latin, with an account of the manuscripts used.

The number of volumes of Chronicles and Memorials sold for Your Majesty's Stationery Office during the year 1888 has been 1,610, making a total of 48,074.

At the end of the year there were 15 works belonging to this series in the press or in the blunders' hands, and 4 others in course of preparation.

The material reduction of the amount voted in Parliament for the publication of documents connected with the history of this country prior to the reign of Henry VIII. has, as in 1886 and 1887, prevented the undertaking of any fresh work. The Lords Commissioners of Your Majesty's Treasury, however, were pleased to make separate provision for the publication of some medieval documents relating to Ireland, under the superintendence of Mr. J. T. Gilbert, and the work selected was the Chartulary of the Abbey of St. Thomas the Martyr, Dublin.

§ XII. RESEARCHES IN FOREIGN ARCHIVES.

ROME :

Mr. W. H. Bliss has continued his researches in the Archives of the Vatican and other palaces. During the year 1888 he forwarded to this Office 3,377 transcripts and abstracts of documents relating to the history of Great Britain and Ireland. A summary of his proceedings is given in the Appendix to this Report (pp. 267, 268).

VENICE :

The Calendar of State Papers and Manuscripts at Venice and elsewhere in Northern Italy relating to English affairs has made further progress at press during the year 1888.

SWEDEN :

Further transcripts have been received from Stockholm, pursuant to the arrangement mentioned in the 48th Report (p. xviii.). This work was discontinued in September 1888.

SPAIN, BRUSSELS, and VIENNA :

Don Pascual de Gayangos has continued his researches. Vol. V., Part II., of his Calendar, comprising the years 1536-1538, was in the binders' hands at the end of 1888.

§ XIII. HISTORICAL MANUSCRIPTS COMMISSION.

The work of this Commission has, as in former years, been conducted at Rolls House, the Deputy Keeper of the Records being the acting Commissioner, and the Secretary of the Public Record Office being the Secretary.

Some of the Clerks of the Public Record Office have been employed in calendaring the Cecil Manuscripts from Hatfield House, out of office hours.

All which is humbly submitted to Your Majesty.

Dated this 26th day of July 1889.

(Signed) H. C. MAXWELL LYTE.

I humbly certify to Your Majesty that this Report is made by the Deputy Keeper of the Records, pursuant to the 17th section of the Statute 1 & 2 Vict. c. 94.

(Signed) ESHER, M.R.

APPENDIX NO. 2.—VATICAN AND OTHER ARCHIVES IN ROME.

REPORT made to the RIGHT HONOURABLE the MASTER OF THE ROLLS, for the year ending December 31, 1888.

MY LORD,

I HAVE the honour to submit to your Lordship the following report:—

During the past twelve months 3,877 transcripts and abstracts have been sent to the Public Record Office.

Among the Regesta of the pseudo-pope Clement VII., 1378-94, are letters to nuncios, sent to procure a treaty of peace between the kings of France and England, and to settle questions relating to benefices.

There are also letters to bishops, and to abbots and priors of monasteries in Scotland and Ireland. England did not acknowledge the pseudo-pope.

Among the abstracts of the Regesta of Boniface IX., 1389-1404, there are, in the early years of the pontificate, many appointments to benefices, which will be of use to those who are writing parish histories, or who are interested in the records of religious houses in the United Kingdom.

Copies of documents relating to schools and colleges have been made.

There is a large number of decisions brought before the Church Courts in Rome, and of these some are being copied in full.

The proportion of documents relating to Irish affairs is large, and the difficulties presented to the Roman clerks by Irish names have been got over by a bold and even reckless use of phonetic spelling.

Among the marriage dispensations and other concessions granted to families in the first four years of Boniface IX. are the following names:—Arundell, Arderne, Atteswan, Asshe, Beauchamp, Bryan, Bullock, Beveridge, Benyngton, Burdet, Cresswick, Cary, Champernowne, Clifford, Cowper, Conyers, Crispin, Despencer, Dalton, Derby, FitzHugh, Frewen, Fingall, Falkener, Grigg, Gelleson, Gowsall, Grey, Hervey, Hungerford, Hopstonge, Huntingdon, Huchyn, Leton, Lathom, Langford, Lowther, Morley, Montgomery, Mundeforde, Morwood, Musgrave, Newport, Naunton, Pembroke, Nottingham, Paxton, Plumland, Pollard, Parys, Russell, Swynnerton, Sandewell, Stanley, Scrope, Seymour, Verney, Vere, Warcop, Wace of Waynflete, Waltham, West, Willoughby.

Provision is made for a chapel at Bruges, for the benefit of English-speaking merchants.

In the fifth year of Boniface IX., privileges and dispensations were granted to members of the families of Baron, Blount, Cooper, Cheyne, Claypole, Chaplin, Campden, Corbet, Carter, Draper, Dalby, Dauntesey, Dutton, Fulwood, Giles, Gregory, Holland, Inglewood, King, Keys, Lorimer, Martin, Newman, Newark, Norreys, Otteley, Paxton, Pollard, Sotheran, Selby, Skelton, Sleigh, Speke, Spenser, Tilney, Whiting, Whitehead, Walsingham.

In the sixth year of Boniface IX., the sect known as "Pauperes thesauri Christi" is denounced. Many parish churches are annexed to monasteries and priories in various parts of the country. Several of the documents relate to sees, religious houses, and benefices in Ireland.

In the seventh year of this pontificate, there are the usual dispensations in favour of pluralists, one benefice only with cure of souls being allowed.

Bishops are provided for Carlisle, Waterford, and Llandaff; and appointments are made to several Irish benefices.

In the eighth year, dispensations and privileges are granted to Audeley, Attehille, Berford of Brightwell, Belleman, Burton, Burgate, Buckingham, Bisley, Chetwynd, Chapman, Culburne of Carleton, Conington of Crowmere, Courteney, Denyngton,

Dowty, Dent, Duntone of Hadleigh, Duke, Fuller of Sudbury, Gray, Grenfield, Gernagan, Gresham, Gayllard, Giffard, Holland, Holman of Preston in Wensleydale, Hekyngham, Hemgrave, Hale, Hay, Koe of London, Lawrence, Lyng, Louthe, Musgrave, Nevill of Raby, Norton, Oldbeck, Page, Payn of Bentley, Pylton, Rosse, Redyng, Robson of Auckland, Ralph baron of Graystook, Reynner, Roper, Reginald of Everynham, Rankin, Ragg, Sylsdone, Say, Shuldham, Turner, Warner, Wily.

Thomas Somerotes, rector of Waynflete, while shooting at the butts, put a boy's eye out, and had to be rehabilitated. A considerable number of absentees, many of whom were studying at Oxford or Cambridge, were allowed to enjoy the income of their benefices. There are documents relating to ecclesiastical suits and disputes about the repairs of churches, permissions to monasteries to alienate and let goods and chattels. Chapels-of-ease were allowed to be built. Privileges were granted to the prior and chapter of Durham in relation to the college founded by Thomas, bishop of that see.

On a fly-leaf of a letter book of the apostolic chamberlain and treasurer are written the following remarks by some one, possibly a born neighbour of the English, who vented his spite against them in the intervals of his official labours in Rome: "*Anglicus in tergo caudam gerit, est pecus ergo; Cum tibi dicit Ave, sicut ab hoste cave. Anglicus angelus est, cui nunquam credere fas est.*"

Next year will be sent the accounts of the papal collectors in England for the years 1829 to 1835, and 1864 to 1866.

With regard to the handwriting in the volumes of the Regesta, it could not be better described than in the words used by the late Sir Thomas Duffus Hardy, in his remarks on the Close Rolls, which exactly apply to the writing of the clerks in the Roman chancery.

Among the transcripts are letters from the Secretary of State at Rome to the nuncio at Madrid, to the nuncio at Vienna, and to the nuncio at Paris, in the years 1614, 1615, 1616, 1617, 1619, 1620.

Paul V. frequently added a sentence here and there in his own hand; and Cardinal Millino in many instances wrote the letter addressed to the nuncio. The opposition to the Spanish match was persistent; and the mischief likely to result from the marriage of a Catholic and a Protestant repeatedly pointed out; while the promises of King James in the matter of religious toleration were not believed to be trustworthy. Some of the letters relate to Antonio de Dominis, archbishop of Spalatro, then in England.

With regard to the use made of the Vatican archives, it may be noted that about twenty-five persons are at work daily for purposes of study, a number which is nearly as many as the reading-room will hold. Of these, less than half are Italians. There are agents employed by the governments of France, Germany, and Austria-Hungary, who are engaged in historical research.

I have the honour to be,

My Lord,

Your Lordship's obedient humble servant,

WILLIAM H. BLISS.
